FULL-STACK WEB DEVELOPMENT CERTIFICATE
University of Kansas, 2018

BACHELOR OF MUSIC EDUCATION
University of Kansas, 2002

EXPERIENCE

FULL STACK WEB DEVELOPER | BEE-Z STREET | 2018
bee-z-street.herokuapp.com

Bee-Z Street is a full-stack React site that lets you search indigenous plants and create a drag-and-drop garden. I coded the react drag-and-drop garden, did the front-end styling with react-materialize and CSS, and drew a data flow chart to create an amazing website.

FULL STACK WEB DEVELOPER | TED TALKS SCRAPER | 2018
ted-talks-ideas-article-scrape.herokuapp.com
Ted Talks Ideas Scraper is a website that allows users to scrape the website <https://ideas.ted.com> for articles and comment on them. I used Node, Express, Cheerio, and Mongo on the backend and Javascript, Jquery, Materialize, and Handlebars on the front-end.

ADMINISTRATIVE SPECIALIST | KS INSURANCE DEPT | 2017-CURRENT

I marketed our educational website kansasmoney.gov, wrote finance posts, designed graphics with Adobe Illustrator and doubled our traffic in one year using social media. I went into schools and taught about financial education. I helped plan and judge a scholarship essay competition with a formal awards ceremony, a dinner, a capital tour, and government officials attending.

OTHER JOBS

Marketing/Social Media Manager, Business Owner, Music Teacher, Accountant, Credit Bureau Manager/Investigator
